

Figure 1 is a line plot showing the R-1 (means) metric versus MCMC step. The y-axis is logarithmic, ranging from 10^{-1} to 10^0 . The x-axis ranges from 0 to 35,000 MCMC steps. A solid blue line represents the R-1 (means) metric, which starts at approximately 0.9 and decreases to about 0.04. Two horizontal dotted lines represent the 0.02 and 0.2 thresholds. The R-1 (means) metric crosses the 0.02 threshold around 10,000 steps and the 0.2 threshold around 5,000 steps.
